Conclusion

In Washington, there were 18,442 homeless persons and 5,902 persons without shelter. There may be enough beds for adults and children in families, but at least 13 additional beds are needed for children living alone without shelter, 330 to 333 additional beds are needed for young adults alone without shelter, and 2,629 to 3,004 additional beds are needed for adult individuals without shelter. There may be enough beds for chronically homeless persons in families, but at least 372 to 477 additional beds are needed for chronically homeless individuals and 61 to 73 additional domestic violence beds are needed. Additional shelters or beds are needed in all seven Washington CoCs.
